Your Comments:

The polluters (corporations, government jurisdictions and other entities) must be made to clean and restore the Willamette River to 100% of it's natural, unpolluted state. These entities used the river and now they need to clean it up. Completely. No short cuts. No "do nothing".

The citizens and the local flora and fauna were not the ones that caused the problem and we should not have to live with it. We should also not have to pay for it. The polluters need to be accountable and responsible. 100%.

Anything less is unacceptable.

Thank you.
